Cut-Out Aids

The pieces of furniture included in this publication represent many standard-size pieces drawn to the scale of 1/2 inch equals 1 foot.

By using these cut-outs, you can try to find a better room arrangement without straining your back. If you are moving, you can plan in advance where movers are to place the furniture. These are also helpful if you are building or remodeling.

In the center section you will find paper of the same scale as the furniture. Use this paper to draw first the major outline of the room, then locate doors, windows, radiators, jags and any built-in features.

Move the cut-out pieces on this floor plan until you find a satisfactory arrangement.
