# VEGETABLE VARIETIES IN NEBRASKA

By Wayne C. Whitney  
Extension Horticulturist

Following is a list of the varieties of vegetables found to be satisfactory over the state.

Other varieties have done well in some localities, so if you have one that has been satisfactory, continue to use it. Perhaps some of the suggested varieties would be superior to your local varieties, and hence should be included for trial in future plantings.

## Asparagus

- \*Mary Washington
- \*Washington 500

## Beans

### Bush-green

- \*Contender
- \*Tendergreen
- \*Tenderette

### Bush-Wax

- \*Cherokee
