Three excess tractors at ARDC will be sold to raise funds. Two are industrial types and one is an Allis Chamber track layer. Kleis moved that the excess tractors at ARDC should be sold and proceeds go to Museum Foundation account. Estes seconded. Motion carried. Will probably be sold this spring at ARDC auction.

Vanderholm requested that Splinter write to Omtvedt about meeting his criteria for the museum continuing before we invest more money and time.

People mentioned to invite to Dedication included: Camp Creek Threshers; All donors; All legislators; Friends of NE Tractor Test; All ASAE section members; All IANR administrators; All UNL faculty and staff through Ag Comm; Moriwitz from Successful Farming; and Howell at Nebraska Farmer.

Library of tractor brochures in Montana should be pursued again. Son wanted to keep the library when visited the last time. It was suggested that we should re-contact him. Kleis volunteered to visit the owner in May.

Library and booklets for Tractor Test are in storage at the Conservation Survey building. They will be reviewed by Kleis and Leviticus for possible museum material. They will also work with Historical Society to convert appropriate old slides and films from Tractor Test to use in museum.
