PREFACE

This report contains historical price data for the major crops and livestock classes produced in Nebraska. Prices received by producers are reported for 1960-2000 or for the period listed in each table heading.

The data was compiled from Nebraska Agricultural Statistics, Nebraska Agricultural Statistics Service and Agricultural Prices, USDA; Livestock, Meat and Wool Market News, Livestock and Grain Market News, Agricultural Marketing Service, USDA; and from Agricultural Statistics Board, National Agricultural Statistics Service, USDA. Each table indicates the price source.

Calendar year average prices (simple averages of the January through December prices) are provided in each table. For crops, weighted marketing-year averages are also provided. Ten-year monthly and yearly averages and length-of-table price period monthly and yearly averages are included at the bottom of each table.

Some commodity price data series have been adjusted to provide a complete series and occasionally prices have to be interpolated for selected months. Specific information on the necessary changes, adjustments and data sources are contained in the footnotes of the respective tables.

It is the intention to update this report annually. Appropriate additions, revisions or deletions will be made at those times. Requests for the updated reports should be sent to the Department of Agricultural Economics, Institute of Agriculture and Natural Resources, 208 H.C. Filley Hall, P.O. Box 830922, UNL-East Campus, Lincoln, Nebraska 68583-0922 or contact your local University of Nebraska county extension office.
