CROP and LIVESTOCK PRICES for NEBRASKA PRODUCERS

BY

ALLEN C. WELLMAN

HISTORICAL PRICES 1960-1997

Feed grains
Cereal crops
Cattle
Swine
Sheep
Other selected commodities

Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Kenneth R. Bolen, Director of Cooperative Extension, University of Nebraska, Institute of Agriculture and Natural Resources.

University of Nebraska Cooperative Extension educational programs abide with the non-discrimination policies of the University of Nebraska-Lincoln and the United States Department of Agriculture.

PREFACE

This report contains historical price data for the major crops and livestock classes produced in Nebraska. Prices received by producers are reported for 1960-1997 or for the period listed in each table heading.

The data was compiled from Nebraska Agricultural Statistics, Nebraska Agricultural Statistics Service and Agricultural Prices, USDA; Livestock, Meat and Wool Market News, Livestock and Grain Market News, Agricultural Marketing Service, USDA; and from Agricultural Statistics Board, National Agricultural Statistics Service, USDA. Each table indicates the price source as either an Omaha, Nebraska or (as listed) price received by producers.

Calendar year average prices (simple averages of the January through December prices) are provided in each table. For crops, weighted marketing-year averages are also provided. Ten-year monthly and yearly averages (1988-97) and length-of-table price period monthly and yearly averages are included at the bottom of each table.

Table 21 (new in 1997) has a different format. Table 21 lists Kearney Huss Platte Valley and Lexington Livestock Auction prices for various weight ranges of feeder steers and heifers. Average selling weights, monthly price ranges and average selling price are listed for each 100-pound weight range.

Some commodity price data series have been adjusted to provide a complete series and occasionally prices have to be interpolated for selected months. Specific information on the necessary changes, adjustments and data sources are contained in the footnotes of the respective tables. The reader should note that weight classifications for reporting feeder cattle prices changed in 1970 and again in 1992.

It is the intention of the author to update this report annually. Appropriate additions, revisions or deletions will be made at those times. Requests for the updated reports should be sent to the Department of Agricultural Economics, Institute of Agriculture and Natural Resources, 208 H.C. Filley Hall, UNL-East Campus, Lincoln, Nebraska 68583-0922.

(1) Entries are total potato prices calculated from weighted averages of fresh marketed, processed and starch potatoes.

(2) Information for years 1960-75 was compiled from Nebraska Agricultural Statistics, Nebraska Agricultural Statistics Service.

(3) Monthly information for 1976-1997 was obtained from Agricultural Prices, USDA, for Colorado.

Monthly prices for Nebraska were discontinued in 1979, but the yearly (marketing year - June 1 to May 30) average price for Nebraska was \$4.28 (1979), \$6.90 (1980), \$5.80 (1981), \$5.65 (1982), \$6.35 (1983), \$6.30 (1984), \$4.75 (1985), \$6.00 (1986), \$4.70 (1987), \$7.50 (1988), \$7.95 (1989), \$6.45 (1990), \$5.10 (1991), \$6.35 (1992), \$7.00 (1993), \$5.85 (1994), \$6.50 (1995), \$5.25 (1996), and \$5.10 (1997), according to Agricultural Prices, USDA.
