This Article is brought to you for free and open access by the Nebraska Ornithologists' Union at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Nebraska Bird Review by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

FALL 1993 OCCURRENCE REPORT (JULY 1 - DECEMBER 31)

This is the last report to be presented for a 6-month period in lengthy tables because, beginning with this issue, Ross Silcock and Richard C. Rosché will have quarterly reports in text form. Their willingness to undertake this major project is greatly appreciated. There is some overlap between the information for December in the two reports because their first quarterly report includes December 1993 through February 1994. However, any descriptive observations they included for December are not repeated in this report.

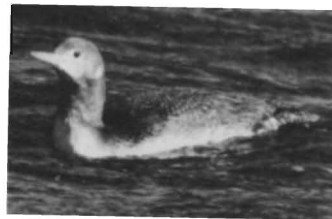

A total of 273 species plus two sightings (swan and meadowlark) not assigned to species were observed in 24 out of 93 Nebraska counties. The observations in some counties were frequent over the six-month period, but included only one or two dates in others. In order to save space, Table 1 (p. 5) lists the rare species requiring documentation; Table 2 (pp. 5-7) lists species not requiring documentation but appearing in one or two counties; and Table 3 (pp. 8-49) lists species appearing in more than two counties. The county species totals, reporters, and observers are listed on p. 50.

DESCRIPTIONS OF SPECIES REQUIRING DOCUMENTATION

Most of the species listed in Table 1 did not have accompanying documentation, as indicated by shading in the cells under "Date". Hopefully, a list of such species from the NOU Records Committee can be published in a future issue of NBR.

Red-throated Loon (Douglas Co.):

B. Padelford sent the photo shown here, taken by B. J. Rose at Standing Bear Lake in Omaha on 19 Nov. Babs wrote, "Although there have been 17 reports since the 1899 specimen was collected, to our knowledge this is the first documented sighting since then."

Clark's Grebe (Lincoln and Keith Cos.): R. C. Rosché observed a well-marked individual on Sutherland Reservoir on 3 Sept. He wrote, "The whitish sides, orangish bill color, and dark eye surrounded by white were all obvious on this individual." He also reported a Clark's Grebe in Keith Co. on 31 July (for other observers see county lists).

Short-billed Dowitcher (Garden Co.): R. C. and D. J. Rosché studied a well-marked individual carefully at close range near Lewellen on 2 Sept.

California Gull (Keith Co.): R.C. and D. J. Rosché saw about 50 at the east end of Lake McConaughy on 3 Sept. No description was provided.

Broad-tailed Hummingbird (Dawes Co.): R. C. Rosché wrote, "An immature male was at the Salvia flowers in our yard on 1 Sept. This was the only hummingbird of the fall this year." No description provided.

SIGHTINGS NOT REQUIRING DOCUMENTATION

Pied-billed Grebe (Garden Co.): R. C. Rosché saw a stripe-headed juvenile at Lewellen on 20 Nov., which he wrote was indicative of the very late nesting season. He saw no adults with it and thought it was not able to fly.

Double-crested Cormorant (Lincoln and Keith Cos.): R. C. and D. J. Rosché found that the LATE NESTING SEASON continued well into autumn. Adults were feeding young cormorants in two nests at Sutherland Reservoir, Lincoln Co., on 3 Sept., and four birds were at the same place on 19 Nov. One bird was still on Lake McConaughy at Otter Creek,

Keith Co. on 20 Nov.

Cinnamon Teal (Dawes Co.): R. C. Rosché wrote, "A well-marked eclipse-plumaged male with a bright-red eye was noted near Crawford on 10 Sept. This is my first September observation in 25 years!"

Bald Eagle (Saunders Co.): Fr. Thomas Hoffman wrote, "The one really significant sighting was of the Bald Eagles that appeared in Aug., Sept., and Oct. The Aug. bird was an adult, but very ragged-looking. I saw birds again 11 and 25 Sept. and 17 Oct., each time a beautiful adult. On 9 Nov. several Bald Eagles appeared and remained through 1 Jan."

Golden Eagle (Dakota Co.): Bill Huser reported that this species, seen 1 Nov., is an uncommon migrant or winter visitor in the county.

Common Nighthawk (Dawes Co.): D. J. Rosché noted that 200 migrants passed over Chadron on 27 Aug.

Violet-green Swallow (Dawes Co.): R. C. and D. J. Rosché noted one bird near Wayside on 28 Aug. They wrote that while this species nests in canyons in this county, migrants away from the canyon areas are rare in the fall.

Black-billed Magpie (Scotts Bluff and Keith Cos.): "There appeared to be much larger numbers of this species in the North Platte River Valley than in the average fall season, probably representing a strong post-breeding eastward movement; 19 were noted at North Platte National Wildlife Refuge, Scotts Bluff Co. on 14 Aug., and a flock of 65 at Lake Ogallala, Keith Co. on 2 Sept." (R. C. and D. J. Rosché.)

Red-breasted Nuthatch (Sheridan Co.): R. C. Rosché wrote that this seemed to be a major flight year, although he had seen higher numbers in previous years. His highest count this fall was 5 at Smith Lake on 24 Sept.

Pygmy Nuthatch (Dawes Co.): One individual at Chadron State park on 22 Sept. was the first observation by R. C. Rosché this far eastward on the Pine Ridge in several years.

Ruby-crowned Kinglet (Sheridan Co.): "My highest ever maximum one-day count for Western Nebraska was 11 at Smith lake on 24 Sept." (R. C. Rosché.)

Chipping Sparrow (Dawes Co.): "An immature was at our feeders in Chadron on the very late date of 28 Nov. It fed on the ground and perched in a bush for long periods of time in the afternoon. We saw its grayish rump well, dark line through the eye, general small size, and striped back; the breast was unstreaked with a slight buffy-colored wash." (R. C. and D. J. Rosché.)

Harris' Sparrow (Dawes Co.): R. C. and D. J. Rosché reported the best showing this far west in Nebraska beginning in mid-Oct. They had a maximum of 8 at their feeders in Chadron as late as 3 Nov.

Brown-headed Cowbird (Box Butte Co.): "One was near Berea on 24 Sept. This species is almost non-existent anywhere in Western Nebraska every year after about 15 Aug." (R. C. Rosché.)

TABLE 1. Fall 1993 occurrences of rare species requiring documentation (NOU Records Committee); if it is not provided, the date cell is shaded.

REPORTERS, OBSERVERS, AND COUNTY TOTALS, FALL 1993 OCCURRENCE REPORTS

Note: Counties are arranged in the same order as in Table 3.

Scotts Bluff: 140 species. Reporters: Alice Kenitz, Richard C. Rosché, Dorothy J. Rosché. Observers: Sue Amiotte, Felix Koenig, Lucy Koenig, Brad McKinney, Edna Claire Thomas, Nora Mae Vance.

Daves: 142 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Box Butte: 34 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Morrill: 52 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Cheyenne: 35 species. Richard C. Rosché, Dorothy J. Rosché.

Sheridan: 121 species. Reporters: Tanya Bray, Richard C. Rosché, Dorothy J. Rosché.

Garden: 77 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Deuel: 21 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Cherry: 47 species. Reporter: Tanya Bray.

Grant: 41 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Thomas: 88 species. Reporter: Tanya Bray.

Arthur: 38 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Keith: 150 species. Reporter: Richard C. Rosché. Observers: Stephen J. Dinsmore, Amy Goddert, Susan B. Grove, Dorothy J. Rosché, W. Ross Silcock.

Lincoln: 134 species. Reporters: Richard C. Rosché, Dorothy J. Rosché, Wilma Wyman. Observers: Esther and Harold Cunningham, Greg Hoover, Skip Raney, Ryan Tickle, Howard Wyman.

Perkins: 33 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Chase: 42 species. Reporters: Richard C. Rosché, Dorothy J. Rosché.

Knox: 98 species. Reporter: Mark A. Brogie.

Dodge: 16 species (banded). Reporter: Mabel Ott. Observers: Michael Manning, Robert Manning.

Saunders: 99 species. Reporter: Fr. Thomas Hoffman.

Lancaster: 147 species. Reporters: Larry Einemann, Mabel Ott.

Dakota: 109 species. Reporter: Bill Huser.

Douglas: 85 species. Reporter: Clyde Johnson. Observer: Emma Johnson.

Sarpy: 181 species. Reporters: Kathleen Crawford-Rose, Ruth C. Green, Raymond C. Korpi. Observers: Janet F. Korpi, Robert Rose.

Douglas/Sarpy: 159 species. Reporters: Babs and Loren Padelford.

Cass: 101 species. Reporter: Gertrude Wood. Observers: Kevin and Jan DeGarmo, Donald Wood.
